

For Immediate Release

Woodland Rotary Club Donates to City's Youth

By Dan Stroski

Woodland, CA— April 5, 2023 on April 4, 2023 the Woodland Rotary Club donated in excess of \$45,000 to the Woodland Recreation Foundation (WRF). These funds were proceeds from our 2022 Annual Dinner Auction. The WRF had been seeking funds for a new girl's fast pitch softball field, set to be built at the Woodland Senior Center.

It was WRF Board Member Skip Davies that brought this project to the attention of the Woodland Rotary Club. Shawn Seyk, President of the Woodland Rotary Club said that "We are excited to help this project which will provide a much needed, quality field complex, for our community's young female athletes."

Our club routinely seeks out local community projects such as these, and use the funds from our Annual Dinner Auction fundraisers to support them. This year on April 22, 2023 we will sponsor another Dinner Auction at the California Agriculture Museum. The proceeds will go to a few Community Chest type organizations that have requested our help.
