or a hotel on the beach**

# RotoCare Richmond free medical clinic

## Going the Extra Mile at RotoCare

Sharda, a polio victim as a small child, is in the USA as a visiting Graduate MBA student from Nepal.

At RotoCare Richmond, she presented with extensive infected blisters on her legs. Sharda is living in Richmond, attending school in Oakland, and walking to the bus and walking from bus to school and between buildings to attend class. As a result, Sharda has to spend much more time on her feet and walking than she had in Nepal, damaging her legs and putting her in pain.

Unfortunately, her 13-year-old leg braces were worn out and fit poorly. In addition to treating her infection, RotoCare has worked to improve her transportation through the East Bay Para-Transit system. Now, we are fund-raising to replace her worn out braces, while working with her school to try to find easier transport between classes.

Phone: 510-214-6678

LEARN MORE ABOUT THE ROTO-CARE BAY AREA @ [ROTOCAREBAYAREA.ORG](http://ROTOCAREBAYAREA.ORG)

Jose came to RotoCare Richmond suffering from acute rheumatoid arthritis. He was 100% disabled and unable to work. We treated Jose and arranged for him to receive free-of-charge an immuno-suppressive drug costing \$1100/month. Within two months of coming into RotoCare, Jose was able to return to work with no symptoms. Afterwards we worked with Jose to get insurance and on-going support through the Contra Costa County Rheumatology Clinic.

## R6 VR for PolioPlus

### Rotary and Google Joint Virtual Reality Fundraising Project

1/29/2017

Thank you for your interest in making history in the creation of a joint Virtual Reality (VR) Fundraiser with the Rotary and Google. This is the Rotary VR Project that will change the world of fundraising.

#### The Background

Google and several Rotarians, led by Jim Marggraff, presented a proposal to the Rotary to partner with Google on a virtual reality (VR) fundraising initiative to enable people to be immersed in compassion and empathy for the community and causes Rotary serves. The Rotary responded very favorably and we await confirmation to release the R6 VR Project (named for the Rotary six areas of focus) and its potential to magnify Rotary giving, worldwide.

#### Potential Benefits to Rotary

The proposed partnership with Google would launch a large-scale, VR-based, global fundraising campaign for Polio Plus initially. Benefits to Rotary include:

- |                       |  |
|-----------------------|--|
| • Brand and Image     | Positions Rotary as a forward-thinking, high-tech, leading edge organization |
| • Elevates Visibility | Rotary and our Causes  |
| • Membership          | Increase visibility among a broader demographic                              |
| • Member Engagement   | New and novel way of experiencing Rotary                                     |
| • Fundraising         | Mobile-giving includes non-Rotarians, higher visibility, expand demographics |
| • Partnership         | Opportunity for future programs with Google                                  |
| • Polio               | An additional resource to leverage our story                                 |

#### The Opportunity for You, the Clubs, and Club Foundations

We have a small window of opportunity to get this Project started with the video production, a local Beta Pilot, and a worldwide Production launch this year. We are seeking local, early contributors to fund the remaining \$80K of the local \$250K, which will be matched \$250K by Rotary, and \$500K by Google. The contributions are tax-deductible and counts towards Polio Plus, Paul Harris, and Major Donor recognitions.

- You can send your pledges or checks payable to "The Rotary Foundation", and state in the memo "R6VR".
- Mail to: VR - Lamarinda Sunrise Rotary, PO Box 1491, Lafayette, CA 94549

#### Presentation and Demonstration of the VR Technology

The R6 VR Team will be available to present the Project, and demonstrate the VR technology at the Club Meetings, as well as with individual donors. We will have the Google Cardboard VR headsets and ear buds. And the VR Video can run off of your smartphone. We can send you the instructions for running the video.

Thank you for all that you do and give.

– The R6VR Project Team, A Joint Rotary and Google Team
