Woodland Rotary Project Team

- Clyde Brooker
- David Contto
- Tony Delevati
- Karl Diekman
- Les Engelmann
- Kris Kristensen
- Dr. Jim McGibbon
- Tom Schwarzgruber
- Gary Wegener

Project Objective

- To increase the capabilities of clinics in Nicaragua to examine for and treat pre-cervical cancer conditions
- Increase the pool of volunteers for future training projects
- Increase the capabilities of clinics in underserved areas
- Provide basic equipment/tools for evaluating and treating pre-cervical cancer conditions in three clinics
- Provide education to women on the need for screening and treatment for the prevention of cervical cancer

Specific Purpose

- Improve the capabilities of qualified individuals to screen for the treat dysplasia
- Volunteers from the US team will learn how to work in less advanced work environment and gain the experience of volunteering
- Nicaragua medical staff in Rural Clinics will learn techniques appropriate to the local conditions

Specific Purpose (cont.)

- Three clinics will receive equipment necessary for testing and treatment
- Between 1,250 and 1,500 will be examined during the training period(s)
- Rotarians in Woodland and partner clubs will have the experience of applying for and conducting a Global Grant project

What is Next

- We have a couple of outstanding equipment purchases
- Submit a Final Report to The Rotary Foundation

**Should we
develop a long-
term relationship
with the Rotary
Club of Leon**
